TO SOUTHERN RIGHTS WHIGH.

"What is to become of you Souhern Rights Whigs" is a question frequently asked now-a-days. In the present article, and perhaps some subsequent numbers, I propose to offer some reflections by way of answer to this question to which I particularly invite the attention of those to whom it is addressed. In the present complexity of political affairs in our State, there are other politicians besides the Southern Rights Whigs, and some of them men of note, to whom such a question as the above could not be otherwise than embarrassing, or if not so at this moment, must of necessity become at the next turn of the wheel which will take parties with which they may be conplace in a few months. Indeed, I hope nected. to make it appear that there is no class | A SOUTHERN RIGHTS WIHG. of politicians in the State whose path for the future in obstructed by fewer This gentleman, occupying the highdifficulties, than that class to whom est judicial station in Mississippi, and Goods &c., on hand also, which they are this article is addressed, and to which an avowed candidate for no office what- selling very cheap for the cash. "LOOK AT THE CERTIFICATES!"

Mr. Lonsbury's "Supporter" presents itself for the favorable consideration of the public.--Having performed many successful cures with the assistance of this instrument, he has so much con-fidence in the patent that he warrants it to cure

the most aggravated cases of Prolapsus Uteri.— This lavention having gained, through its superiority over all other instruments for the cure of the aforementioned disease, the confidence of the Medical Faculty of both New York and Philadel phia, he here presents it with the certificates of two distinguished physicians, as a guarantee of its excellence:

Mn. Lossevar:

Dean S.a.—After giving your Audominal Supporter a fair trial, in several aggregated cases of Prolapsus and Procedurin Uters, I feel it a duty incumbent upon me, for the benefit of those interested, to make a fair statement in reference to your Abdominal Supporter. I have used them in my practice, and inversibly with the greatest success; even in cases where others had entirely failed. I am led, therefore, to state, that, in my opinion, it is far superior te any thing. that, in my opinion, it is far superior to any thing of the kind as yet presented to the public. I find it better adapted for the support of the abdomi-nal viscera, and better calcunded to be services-

Gendlemen, we submit the above facts Letter from Dr. Higgason, of Sammerville. For the benefit of those interested I feel it my duty to make a statement in reference to the pat ent Abdominal Supporter, invented by Mr. A. J. Lonsburg.

Lonsbury.

I have prescribed the above apparatus in many cases of Prolapses and Procidenta Uteri. I have used it carendively in my practice ever since its invention by Mr. Lonsbury. (two years) and always with decided benefit. I think it very far superior to my thing of the kind ever presented to the public. Combining, as it does, every principle of support of the Abdominal and Pairi Viscom calculated to be practically useful in the discussing commands alluded to above. Its near mechanical adaptation to the parts, also renders its use extirely easy and confortable at all times.

J. HIGGASON, M. D. Sommerville, Tenn., July 16, 1859.

SOMMERTHIN, Term, July 15, 1850.

1 feel it a duty that I owe Mr. Londbury, as well as those who may be afflicted with Prolapsed stock instantion of his addominal Supporters on a negro woman, also a herner trues on one of my negro men, with math succession.
